Contents

VOLUME 5, NUMBER 1, FEBRUARY 1980

WILLIAM BLOCK and JÜRG ZETTEL: Cold hardiness of some Alpine Collembola 1–9

C. F. CURTIS and P. RAWLINGS: A preliminary study of dispersal and survival of *Anopheles culicifacies* in relation to the possibility of inhibiting the spread of insecticide resistance 11–17

B. E. FREEMAN: A population study in Jamaica on adult *Sceliphron assimile* (Dahlbom) (Hymenoptera: Sphecidae) 19–30

J. A. GREENBLATT and P. BARBOSA: Interpopulation quality in gypsy moths with implications for success of two pupal parasitoids: *Brachymeria intermedia* (Nees) and *Coccygomimus turionellae* (L.) 31–38

J. H. LAWTON, B. A. THOMPSON and D. J. THOMPSON: The effects of prey density on survival and growth of damselfly larvae 39–51

DOUGLASS H. MORSE: The effect of nectar abundance on foraging patterns of bumble bees 53–59

B. SHORROCKS and P. CHARLESWORTH: The distribution and abundance of the British fungal-breeding *Drosophila* 61–78

PETER D. STILING: Host plant specificity, oviposition behaviour and egg parasitism in some leafhoppers of the genus *Eupteryx* (Hemiptera: Cicadellidae) 79–85

J. S. WELTON and J. A. B. BASS: Quantitative studies on the eggs of *Simulium* (*Simulium*) *ornatum* Meigen and *Simulium* (*Wilhelmia*) *equinum* L. in a chalk stream in southern England 87–96

BOOK NOTICES; ERRATUM 97–98

VOLUME 5, NUMBER 2, MAY 1980

MICHAEL J. AUERBACH and STEPHEN D. HENDRIX: Insect–fern interactions; macrolepidopteran utilization and species–area association 99–104

CARLOS BERNSTEIN: Density-dependent changes in sex ratio in *Colias lesbia* (Lepidoptera; Pieridae) 105–110

STANLEY H. FAETH: Invertebrate predation of leaf-miners at low densities 111–114

M. G. HILL and D. McC. NEWBERY: The distribution and abundance of the coccid *Icerya seychellarum* Westw. on Aldabra atoll 115–122

MARK A. JERVIS: Ecological studies on the parasite complex associated with typhlocybine leafhoppers (Homoptera, Cicadellidae) (Corrigendum, p. 307) 123–136

EDWARD KLAUSNER, ELIZABETH RUTH MILLER and HUGH DINGLE: *Nerium oleander* as an alternative host plant for south Florida milkweed bugs, *Oncopeltus fasciatus* 137–142

H. G. KLEMPERER: Kleptoparasitic behaviour of *Aphodius rufipes* (L.) larvae in nests of *Geotrupes spiniger* Marsh. (Coleoptera, Scarabaeidae) 143–151

V. C. MORAN: Interactions between phytophagous insects and their *Opuntia* hosts 153–164

GORDON PRITCHARD: Life budgets for a population of *Tipula sacra* (Diptera; Tipulidae) 165–173

PETER D. STILING: Colour polymorphism in nymphs of the genus *Eupteryx* (Hemiptera; Cicadellidae) 175–178

MARY STUBBS: Another look at prey detection by coccinellids 179–182

FRANK G. ZALOM, A. A. GRIGARICK and MICHAEL O. WAY: Diel flight periodicities of some Dytiscidae (Coleoptera) associated with California rice paddies 183–187

BOOK NOTICES 188

VOLUME 5, NUMBER 3, AUGUST 1980

J. J. BOOMSMA and A. DE VRIES: Ant species distribution in a sandy coastal plain 189–204

EDWARD F. CONNOR, STANLEY H. FAETH, DANIEL SIMBERLOFF and PAUL A. OPLER: Taxonomic isolation and the accumulation of herbivorous insects: a comparison of introduced and native trees 205–211

PETER DUELLI: Adaptive dispersal and appetitive flight in the green lacewing, *Chrysopa carnea* 213–220

GEORGE J. GAMBOA: Comparative timing of brood development between multiple- and single-foundress colonies of the paper wasp, *Polistes metricus* 221–225

M. J. G. HOPKINS and J. B. WHITTAKER: Interactions between *Apion* species (Coleoptera: Curculionidae) and Polygonaceae. I. *Apion curtirostre* Germ. and *Rumex acetosa* L. 227–239

M. J. G. HOPKINS and J. B. WHITTAKER: Interactions between *Apion* species (Coleoptera: Curculionidae) and Polygonaceae. II. *Apion violaceum* Kirby and *Rumex obtusifolius* L. 241–247

ALAN R. P. JOURNET: Intraspecific variation in food plant favourability to phytophagous insects: psyllids on *Eucalyptus blakelyi* M. 249–261

SANFORD D. PORTER and CLIVE D. JORGENSEN: Recapture studies of the harvester ant, *Pogonomyrmex owyheei* Cole, using a fluorescent marking technique 263–269

P. G. WILLMER: The effects of a fluctuating environment on the water relations of larval Lepidoptera 271–292

M. J. WINTERBOURN and N. H. ANDERSON: The life history of *Philanisus plebeius* Walker (Trichoptera: Chathamiidae), a caddisfly whose eggs were found in a starfish 293–303

SHORT COMMUNICATION D. A. WALLER: Leaf-cutting ants and leaf-riding flies 305–306

BOOK NOTICES; CORRIGENDUM 307

VOLUME 5, NUMBER 4, NOVEMBER 1980

JOHN F. BARKER and ANTJE BARKER: The relation between body size and resistance to desiccation in two species of *Zaprionus* (Drosophilidae) 309–314

PAUL CHARLESWORTH and BRYAN SHORROCKS: The reproductive biology and diapause of the British fungal-breeding *Drosophila* 315–326

J. P. DEMPSTER and M. L. HALL: An attempt at re-establishing the swallowtail butterfly at Wicken Fen 327–334

D. M. GLEN and N. D. BARLOW: Interaction of a population of the black-kneed capsid, *Blepharidopterus angulatus*, and its prey, the lime aphid 335–344

M. G. HILL: Susceptibility of *Scaevola taccada* (Gaertn.) Roxb. bushes to attack by the coccid *Icerya seychellarum* Westwood: the effects of leaf loss 345–352

JAMES F. LYNCH, EDWARD C. BALINSKY and STEPHEN G. VAIL: Foraging patterns in three sympatric forest ant species, *Prenolepis imparis*, *Paratrechina melanderi* and *Aphaenogaster rudis* (Hymenoptera: Formicidae) 353–371

M. MÜNSTER-SWENDSEN: The distribution in time and space of parasitism in *Epinotia tedella* (Cl.) (Lepidoptera: Tortricidae) 373–383

J. N. PERRY, C. WALL and A. R. GREENWAY: Latin Square designs in field experiments involving insect sex attractants 385–396

VICTORIA A. TAYLOR: Coexistence of two species of *Ptinella* Motchulsky (Coleoptera: Ptiliidae) and the significance of their adaptation to different temperature ranges 397–411
